

Planaday BI-datamodel

Stand: release 202610.2, 17-10-2026

76 tabellen en 195 koppelingen. Per onderwerp een diagram van hoe de tabellen aan elkaar hangen; achteraan staan de kolommen van elke tabel.

Inhoud

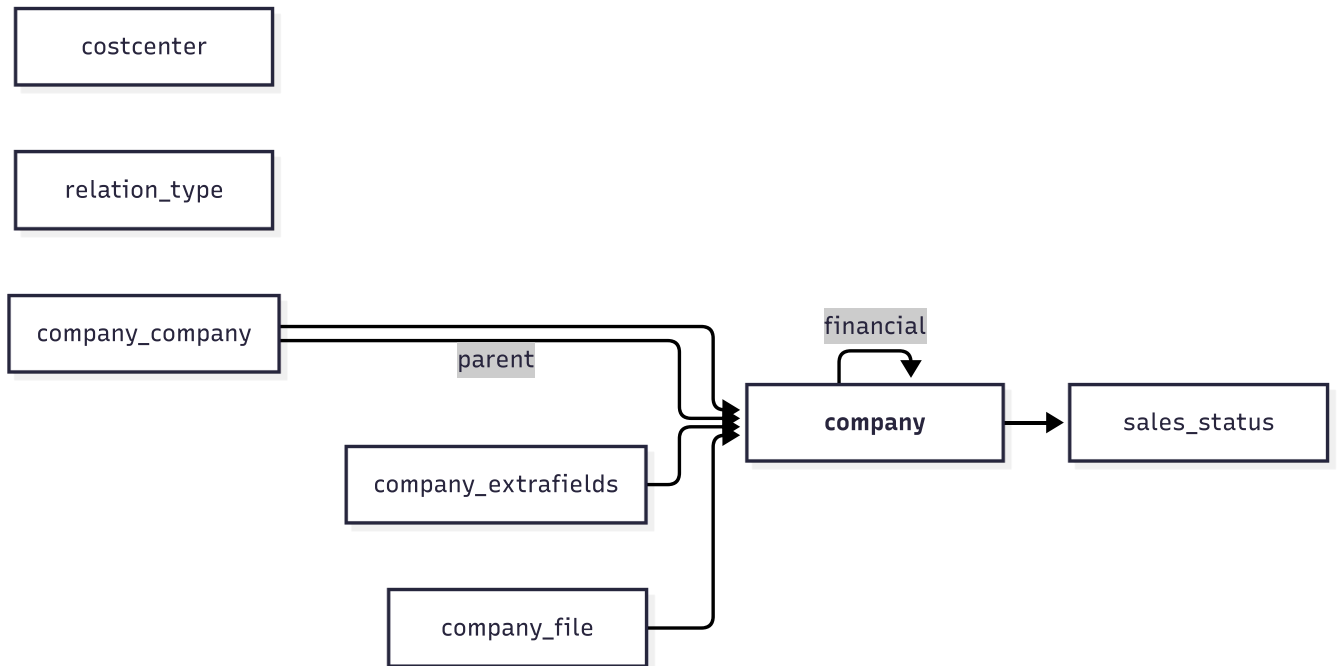

1. Bedrijven
2. Cursussjablonen
3. Cursussen
4. Dagdelen
5. Cursisten
6. Medewerkers
7. Instructeurs
8. Facturen
9. Factuurregels
10. Materialen
11. Gedeelde tabellen
12. Kolommen per tabel

Zo lees je een diagram

- Elk blokje is een tabel. In de BI-database heeft de tabel het voorvoegsel `dto_`: het blokje `course` is de tabel `dto_course`.
- Een pijl loopt van de tabel met de kolom naar de tabel waar die kolom naar verwijst. `invoiceline` → `invoice` betekent dat `dto_invoiceline` een kolom `pad_invoice_id` heeft: daarop koppel je, en bij één factuur horen dus meerdere factuurregels.
- De sleutel van een tabel heet `pad_<tabel>_id`. De sleutel van `course` is `pad_course_id`.
- Staat er een woord bij de pijl, dan zegt de kolom meer dan alleen de tabel: `parent` is de kolom `pad_parent_company_id`.
- Het vetgedrukte blokje is het onderwerp van het diagram. Een gestippeld blokje hoort bij een ander onderwerp en heeft daar een eigen diagram.

Bedrijven

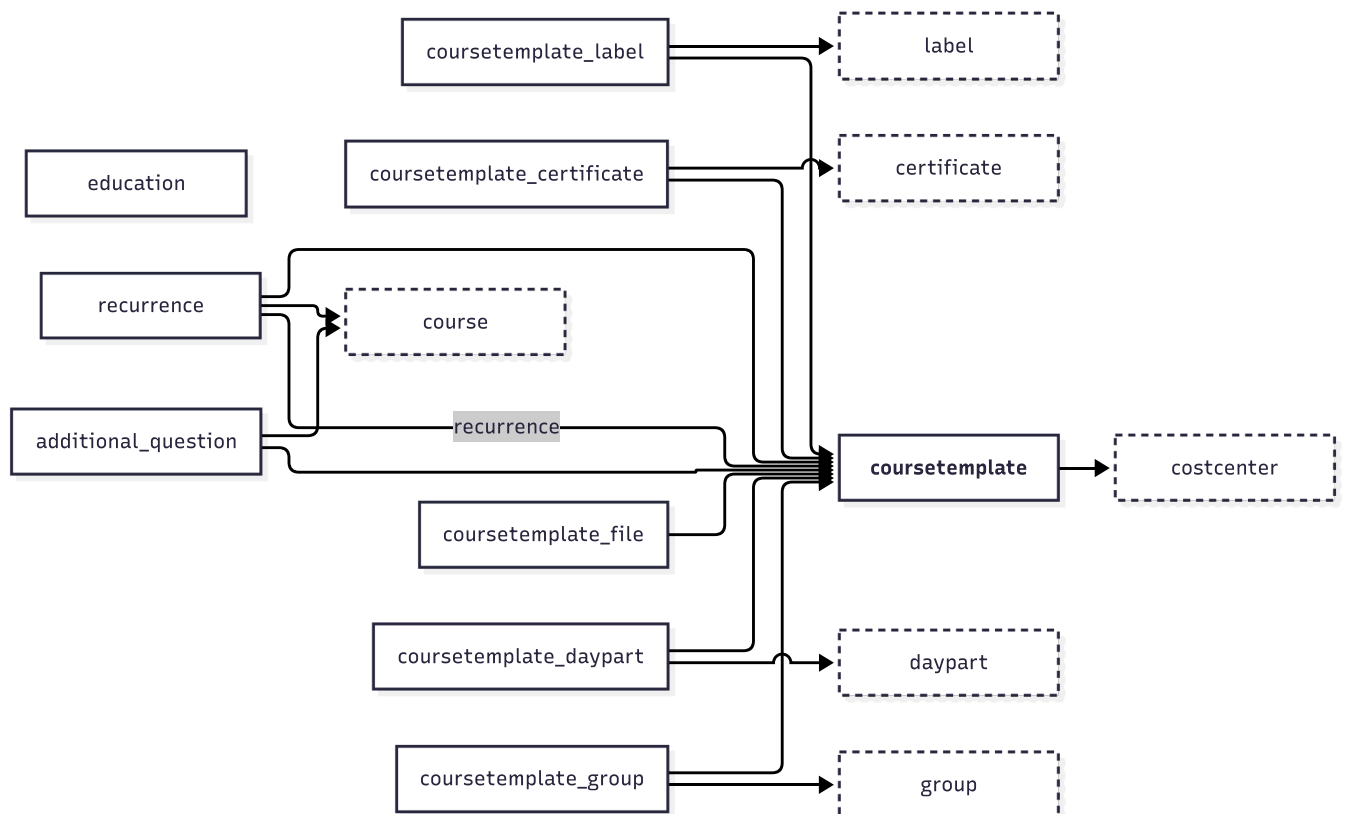

company	Companies
costcenter	Costcenters
sales_status	Sales statuses of a company
relation_type	Types of relations (see the *_relation views)
company_company	Table to determine the relation between companies (vestiging/moederbedrijf)
company_extrafields	Extrafields for companies
company_file	Files of a company

Ook gekoppeld vanuit: course, course_company, coursetemplate, daypart_location, daypart_option, daypart_student, employee, employee_relation, instructor, instructor_relation, invoice, invoiceline, location, note, priceagreement, quotation, student, student_relation.

Cursussjablonen

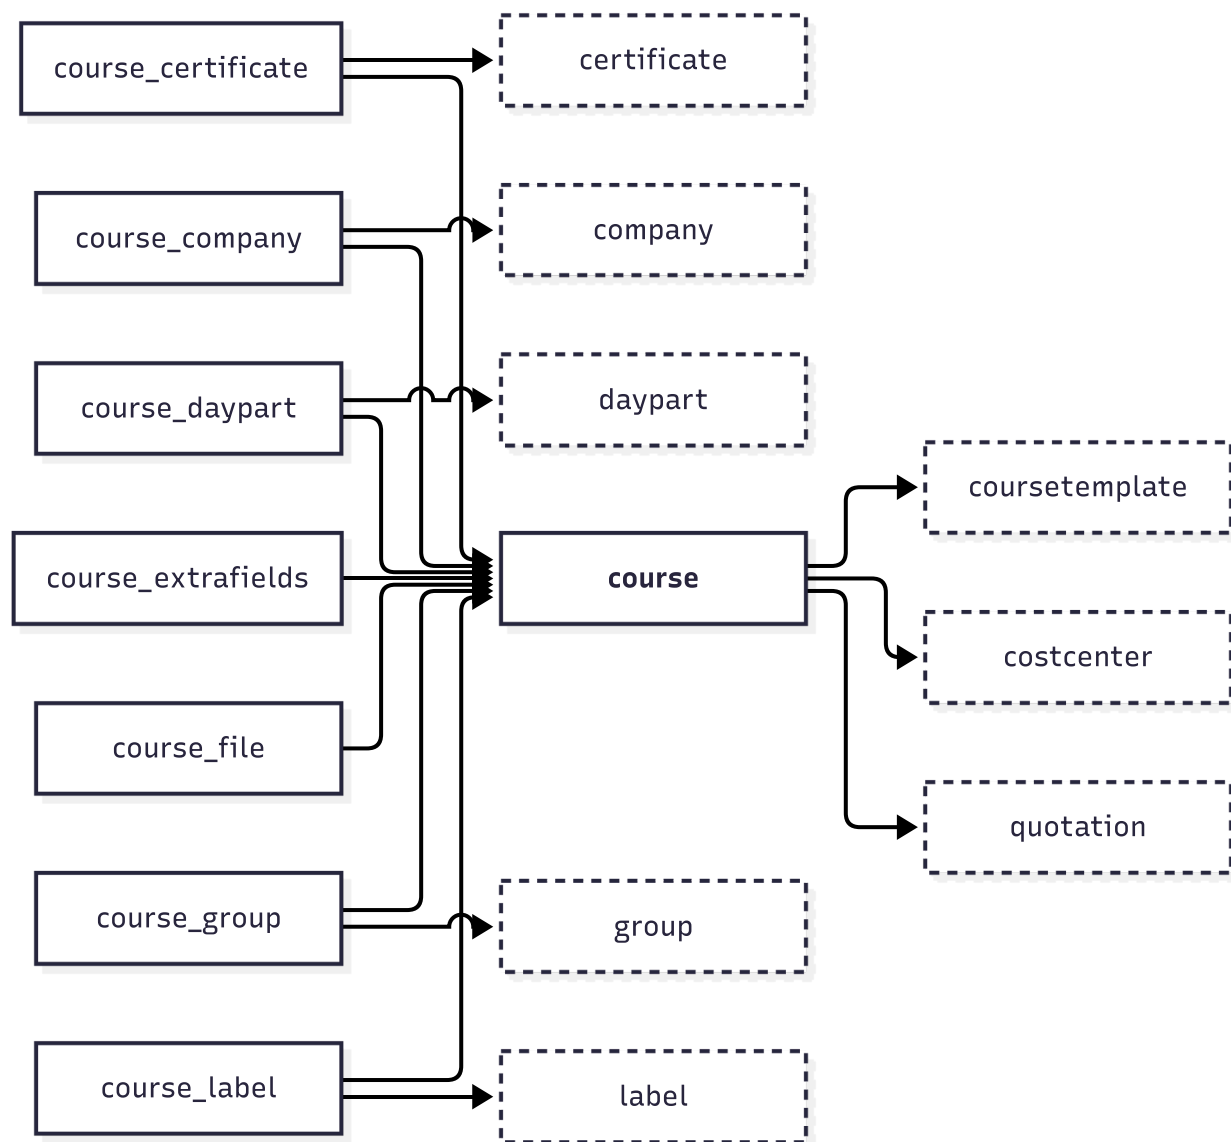

coursetemplate	Coursetemplates
education	Educaties, collection of course(templates)
recurrence	Recurrence schedules of a course or coursetemplate
additional_question	Additional questions of a course or coursetemplate
coursetemplate_certificate	Certificates of a coursetemplate
coursetemplate_daypart	Dayparts belonging to coursetemplates
coursetemplate_file	Files of a coursetemplate
coursetemplate_group	Groups a coursetemplate belongs to
coursetemplate_label	Labels connected to coursetemplates

Ook gekoppeld vanuit: course, daypart_student, invoiceline, note, priceagreement, quotation, registrationlist, student_course, student_recurrence.

Cursussen

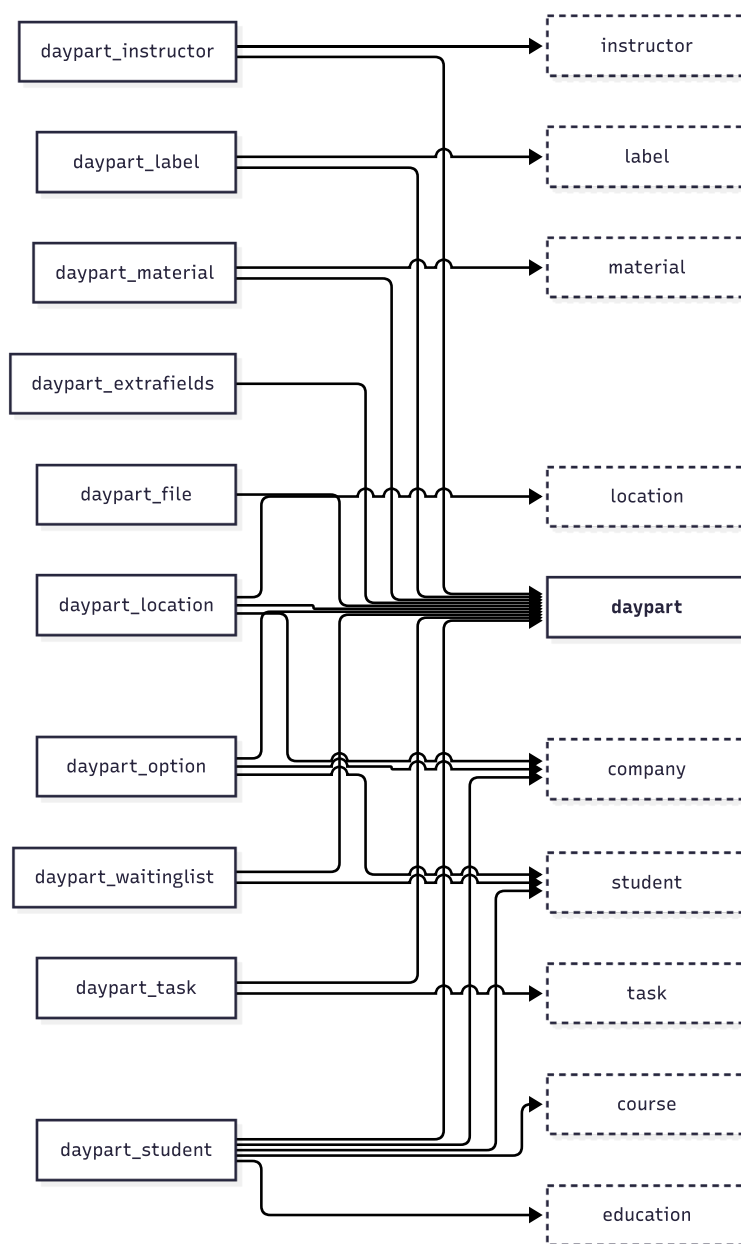

course	All planned courses
course_certificate	Certificates of a course
course_company	Companies which are connected to incompany courses
course_daypart	Dayparts belonging to courses
course_extrafields	Extrafields for courses
course_file	Files of a course
course_group	Groups a course is belongs to
course_label	Labels connected to courses

Ook gekoppeld vanuit: additional_question, daypart_student, invoiceline, note, recurrence, student_cancel_request, student_course, student_recurrence.

Dagdelen

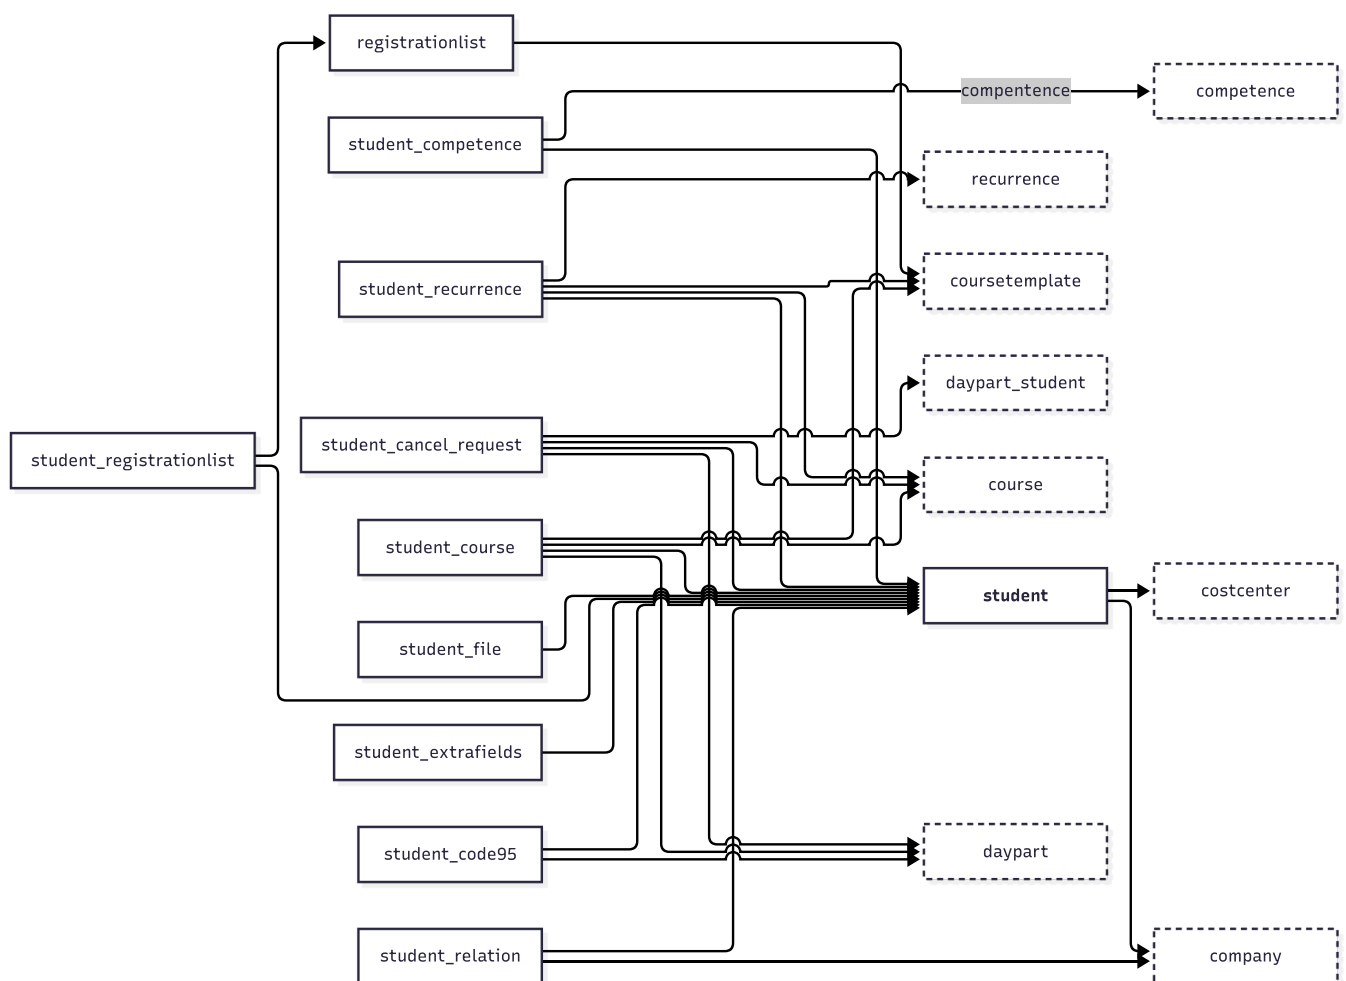

daypart	Dayparts
daypart_extrafields	Extrafields for dayparts
daypart_file	Files of a daypart
daypart_instructor	Instructors plannend on a daypart
daypart_label	Labels connected to a daypart
daypart_location	Where a daypart is given: a location, or for incompany a company
daypart_material	Materials reserved for a daypart
daypart_option	Options (reserved places) on a daypart
daypart_student	Students plannend on a daypart
daypart_task	Tasks to do for a daypart
daypart_waitinglist	Students on the waiting list of a daypart

Ook gekoppeld vanuit: course_daypart, coursetemplate_daypart, note, student_cancel_request, student_code95, student_course, voucher.

Cursisten

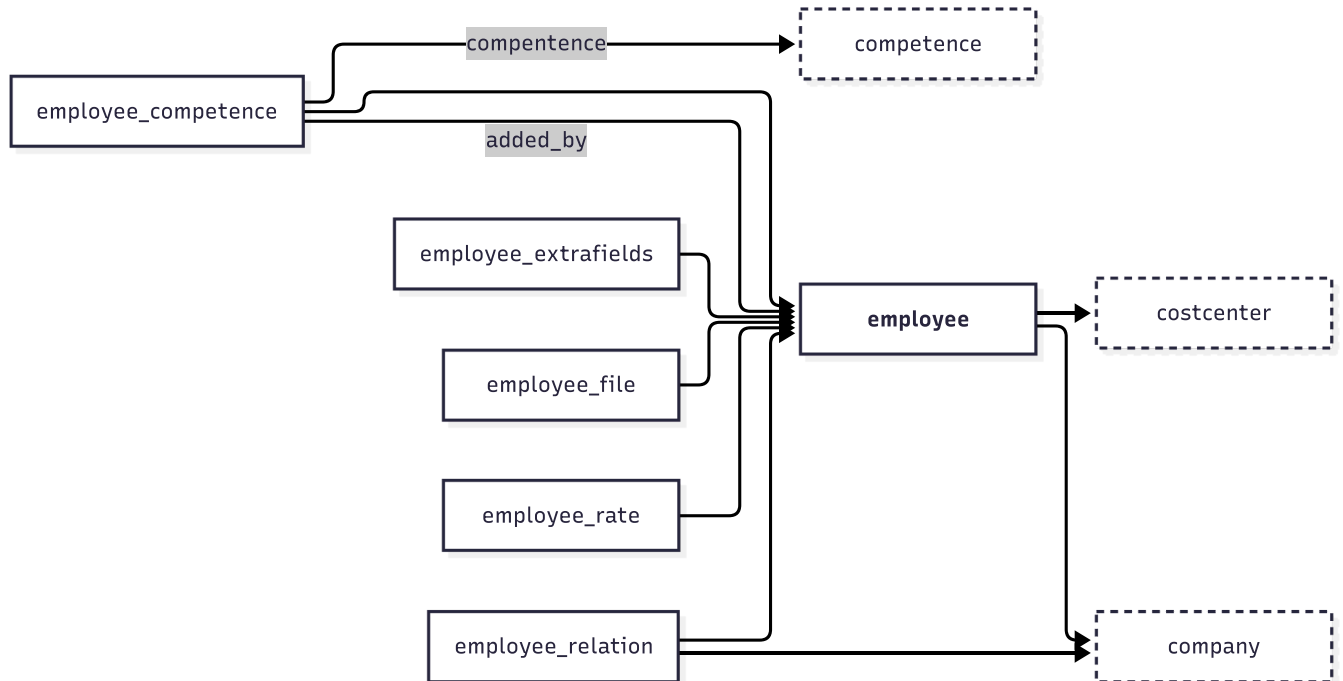

student	Students (both private and from companies)
registrationlist	Registrationlists
student_cancel_request	Requests of students to cancel their planning
student_code95	Code95 periodes/amount for a student
student_competence	Competencens for a student
student_course	Followed courses by students (history)
student_extrafields	Extrafields for students
student_file	Files of a student
student_recurrence	Recurrences of a student: when due, planned, followed
student_registrationlist	Registrationlist for students
student_relation	Relations for students

Ook gekoppeld vanuit: daypart_option, daypart_student, daypart_waitinglist, invoiceline, note.

Medewerkers

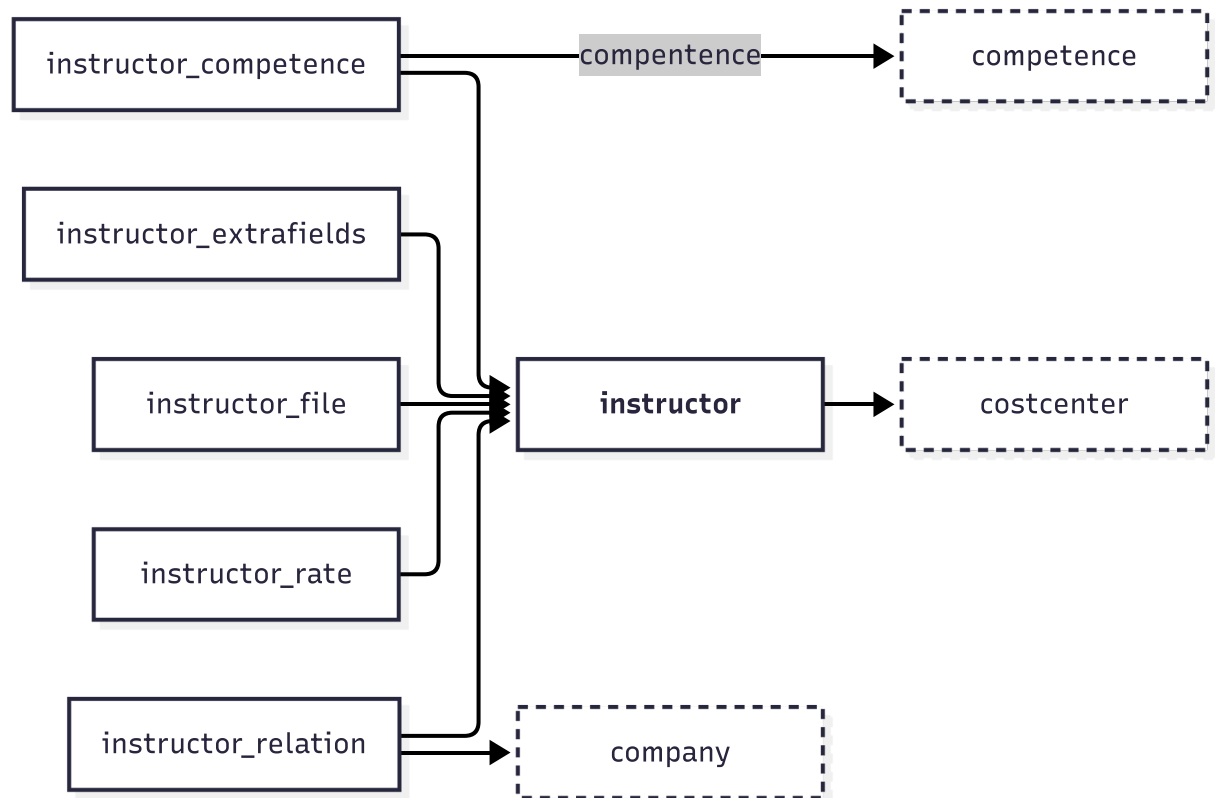

employee	Employees of your own company
employee_competence	Competences of own employees
employee_extrafields	Extrafields for own employees
employee_file	Files of an own employee
employee_rate	Rates for own employees
employee_relation	Relations for own employees

Ook gekoppeld vanuit: note, quotation, task.

Instructeurs

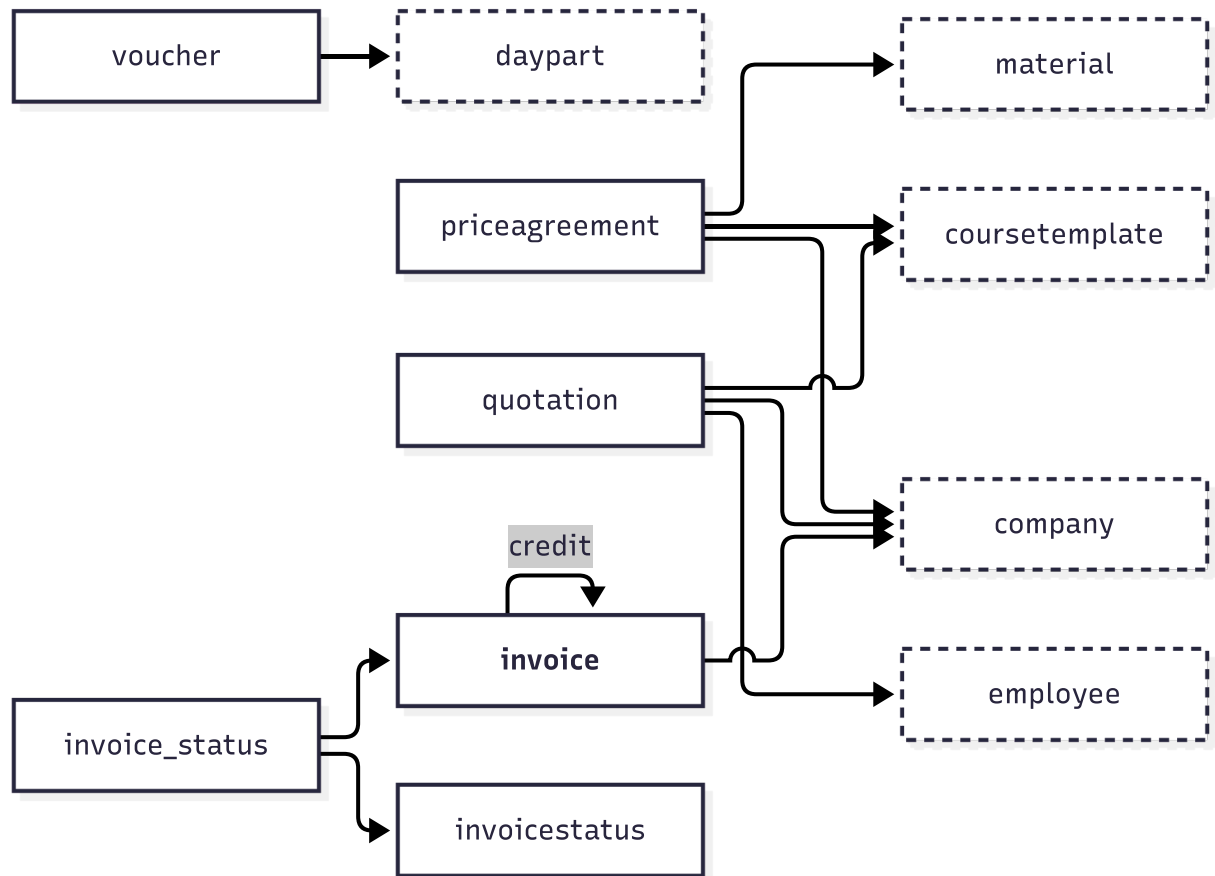

instructor	Instructors
instructor_competence	Instructors competences
instructor_extrafields	Instructors extrafields
instructor_file	Files of an instructor
instructor_rate	Instructors rates
instructor_relation	Instructors relations

Ook gekoppeld vanuit: daypart_instructor, note.

Facturen

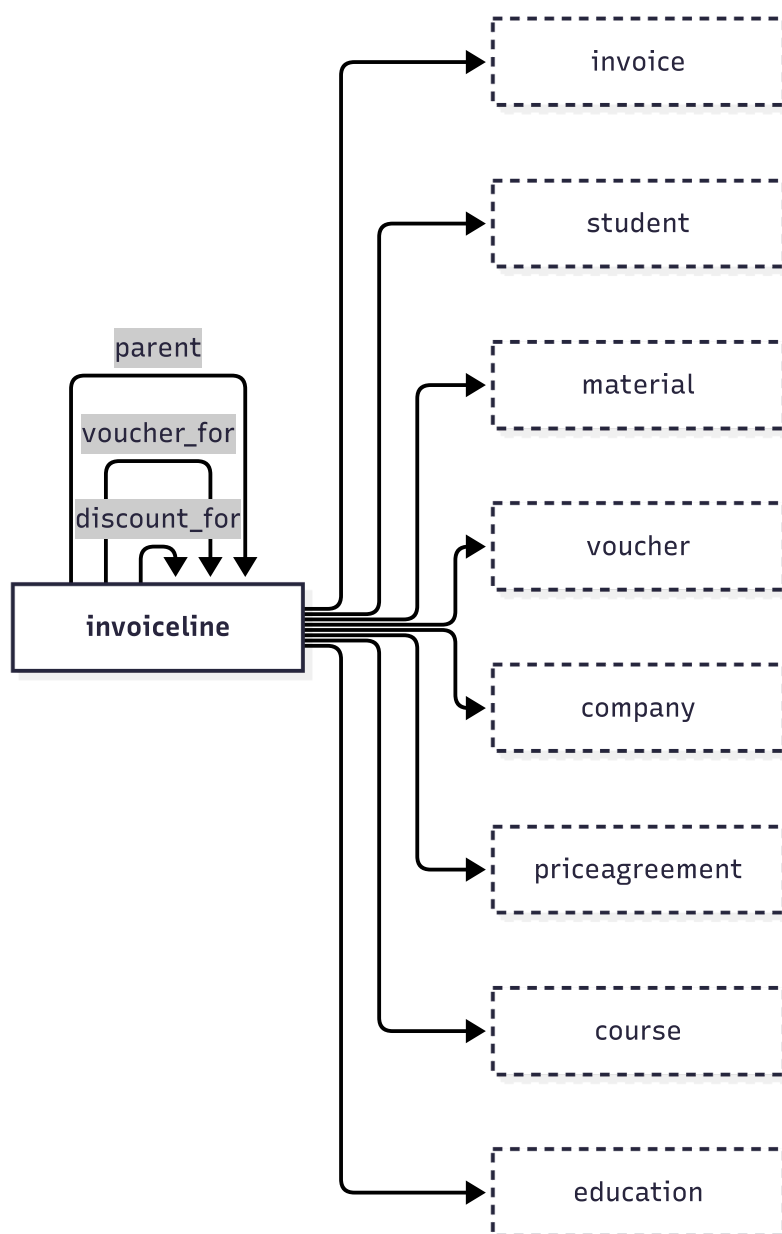

invoice	Invoices
invoicestatus	The statuses an invoice can have
voucher	Voucher
quotation	Quotations
priceagreement	Priceagreement
invoice_status	The status history of an invoice

Ook gekoppeld vanuit: course, invoiceline, note.

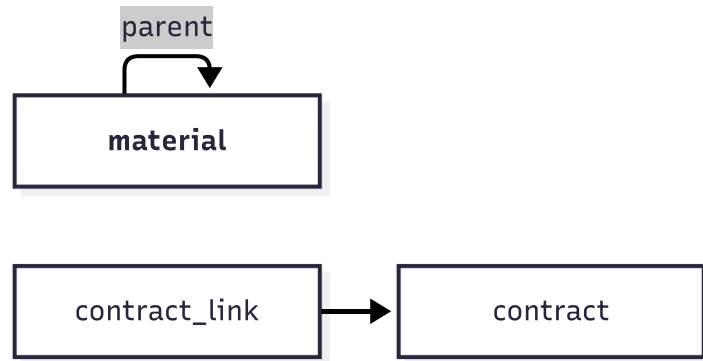

Factuurregels

invoiceline Invoicelines

Materialen

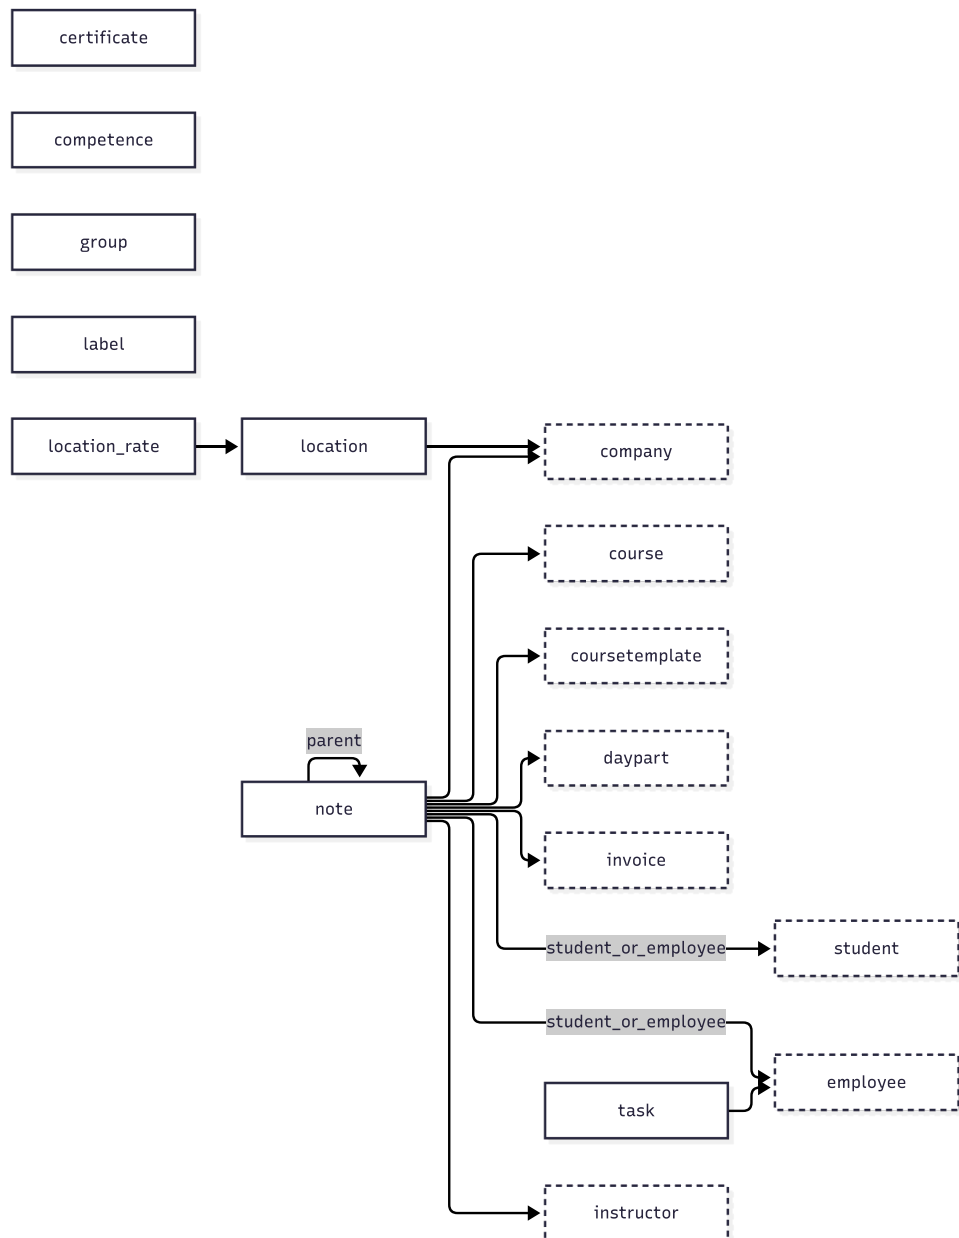

material	Materials which can be reserved for dayparts
contract	Contracts (material management)
contract_link	What a contract is connected to

Ook gekoppeld vanuit: daypart_material, invoiceline, priceagreement.

Gedeelde tabellen

certificate	Certificates
competence	Competences
group	Groups for course, coursetemplate, etc.
label	Labels
location	Locations where coursedayparts can be given
location_rate	location rates
note	Notes on companies, courses, coursetemplates, dayparts, invoices and persons
task	Tasks which can be done for dayparts

Ook gekoppeld vanuit: course_certificate, course_group, course_label, coursetemplate_certificate, coursetemplate_group, coursetemplate_label, daypart_label, daypart_location, daypart_task, employee_competence, instructor_competence, student_competence.

Kolommen per tabel

dto_additional_question	Additional questions of a course or coursetemplate pad_additional_question_id, pad_course_id, pad_coursetemplate_id, label, code, description, value_list, position, is_active, required_in_booking, for_booking, multiple_values_allowed, is_financial, vat_percentage, is_internal
dto_certificate	Certificates pad_certificate_id, name, code, description, is_active, validity_period, price, vat_percentage, article_code
dto_company	Companies pad_company_id, is_active, is_instance_owner, is_archived, is_checked, code, name, address_1, address_2, postal_code, houzenumber, houzenumber_extension, city, province, country, invoice_address_addressee, invoice_address_1, invoice_address_2, invoice_postal_code, invoice_houzenumber, invoice_houzenumber_extension, invoice_province, invoice_city, invoice_country, mailing_address_1, mailing_address_2, mailing_postal_code, mailing_houzenumber, mailing_houzenumber_extension, mailing_city, mailing_province, mailing_country, phonenumber_1, phonenumber_2, fax_number, emailaddress, invoice_email, invoice_addressee, invoice_reminder_email, invoice_reminder_addressee, website, creation_date, coc_number, reference, vat_number, oin_number, creatingsource_name, company_type, sales_status_id, is_hidden, is_financial, financial_pad_company_id, is_blocked, credit_limit, payment_term_days, vat_override_percentage, external_id, datetime_last_updated
dto_company_company	Table to determine the relation between companies (vestiging/moederbedrijf) pad_company_id, pad_parent_company_id, date_added, pad_added_by_employee_id, remark, connection_type
dto_company_extrafields	Extrafields for companies pad_company_id, code, label, value
dto_company_file	Files of a company pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_company_id
dto_competence	Competences pad_competence_id, is_active, name, description, levels
dto_contract	Contracts (material management) pad_contract_id, name, description, is_active, recurrence_months, price, vat_percentage
dto_contract_link	What a contract is connected to pad_contract_link_id, pad_contract_id, linked_to_type, linked_to_id, code, remark, datetime_added, added_by_pad_employee_id, datetime_ended, ended_by_pad_employee_id
dto_costcenter	Costcenters pad_costcenter_id, code, description, is_active
dto_course	All planned courses pad_course_id, pad_coursetemplate_id, code, name, coursetemplate_type, description, max_participants, min_participants, participant_limit, price_per_participant, price_per_course, price_per_daypart, price_description, tarif_code, project_code, price_vat, price_type, price_buyoff, grades_per, grades_required, level_name, crebo_id, croho_id,

	has_soob, created_from_preregistration_list, visible_on_website, visible_on_portal, visible_on_public_api, start_guaranteed, monkey_back_guaranteed, visible_date_from, visible_date_until, stap_active, stap_only, stap_scholing_id, language, costcenter_code, pad_costcenter_id, status_id, cancellation_reason_id, datetime_cancelled, pad_quotation_id, organising_pad_company_id, article_code, certificate_name, price_in_education, remark, datetime_created, external_id, external_provider_id
dto_course_certificate	Certificates of a course pad_course_id, pad_certificate_id
dto_course_company	Companies which are connected to incompany courses pad_course_id, pad_company_id, remark
dto_course_daypart	Dayparts belonging to courses pad_daypart_id, pad_course_id
dto_course_extrafields	Extrafields for courses pad_course_id, code, label, value
dto_course_file	Files of a course pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_course_id
dto_course_group	Groups a course is belongs to pad_group_id, pad_course_id
dto_course_label	Labels connected to courses pad_label_id, pad_course_id
dto_coursetemplate	Coursetemplates pad_coursetemplate_id, is_active, code, name, coursetemplate_type, description, max_participants, min_participants, participant_limit, price_per_participant, price_per_course, price_per_daypart, price_description, tarif_code, price_vat, price_type, grades_per, grades_required, level_name, crebo_id, croho_id, has_soob, visible_on_website, visible_on_portal, visible_on_public_api, visible_in_edudex, visible_date_from, visible_date_until, stap_active, stap_only, stap_scholing_id, stap_opleiding_id, language, costcenter_code, pad_costcenter_id, organising_pad_company_id, article_code, certificate_name, price_in_education, number_of_dayparts, start_guaranteed, money_back_guaranteed, remark, external_id, external_provider_id
dto_coursetemplate_certificate	Certificates of a coursetemplate pad_coursetemplate_id, pad_certificate_id
dto_coursetemplate_daypart	Dayparts belonging to coursetemplates pad_daypart_id, pad_coursetemplate_id
dto_coursetemplate_file	Files of a coursetemplate pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_coursetemplate_id
dto_coursetemplate_group	Groups a courstemplate belongs to pad_group_id, pad_coursetemplate_id
dto_coursetemplate_label	Labels connected to coursetemplates pad_label_id, pad_coursetemplate_id
dto_daypart	Dayparts pad_daypart_id, is_active, pad_belongs_to, style, name, description, time_start, time_end, start_date,

	price_per_participant, presence_processed, presence_processed_by_instructor, billing_processed, display_order_id, elearning_identifier, elearning_party, elearning_name, elearning_description, elearning_finish_before_date, elearning_available_until_date, show_on_calendar, show_in_public_api, show_in_portals, show_in_edudex, connector_name, status, status_id, vat_percentage, remark, has_student_limits, min_number_of_students, student_limit, max_number_of_students, classroom_type_id, article_code, external_id, external_provider_id
dto_daypart_extrafields	Extrafields for dayparts pad_daypart_id, code, label, value
dto_daypart_file	Files of a daypart pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_daypart_id
dto_daypart_instructor	Instructors plannend on a daypart pad_daypart_id, pad_instructor_id, purchasenumber, date_added, pad_added_by_employee_id, is_confirmed, datetime_confirmed, is_invoiced, datetime_invoiced, invoiced_by_pad_employee_id, sort_order
dto_daypart_label	Labels connected to a daypart pad_label_id, pad_daypart_id
dto_daypart_location	Where a daypart is given: a location, or for incompany a company pad_daypart_id, pad_location_id, pad_company_id, location_type, sort_order
dto_daypart_material	Materials reserved for a daypart pad_material_id, pad_daypart_id
dto_daypart_option	Options (reserved places) on a daypart pad_daypart_option_id, pad_daypart_id, pad_company_id, pad_student_id, added_by_pad_employee_id, number_of_places, remark, label, datetime_added, booking_id, internal_reference, is_payed, datetime_payed, payed_with, payment_transaction_id, process_soob, stap_regulation, creatingsource_name, additional_creatingsource_name
dto_daypart_student	Students plannend on a daypart pad_daypart_student_id, pad_daypart_id, pad_course_id, pad_student_id, pad_company_id, datetime_added, added_by_pad_employee_id, was_present, datetime_presence_processed, presence_processed_by_pad_employee_id, presence_processed_remark, process_soob, process_code95, billing_processed, datetime_billing_processed, billing_processed_by_pad_employee_id, absence_permitted, courseresult, elearning_identifier, elearning_username, elearning_start_date, elearning_expire_date, elearning_results_date, elearning_completed_date, internal_reference, booking_id, is_payed, datetime_payed, payed_with, payment_transaction_id, creatingsource_name, additional_creatingsource_name, stap_approved, stap_decision_number, stap_approved_date, stap_finished, stap_finished_date, stap_ready_for_billing, stap_ready_for_billing_date, stap_billed, stap_billed_date, pad_education_id, booked_for_pad_company_id, absence_compensation, absence_discount, remark, label, is_confirmed, datetime_confirmed, added_by_pad_instructor_id, datetime_presence_by_instructor, presence_by_pad_instructor_id, elearning_finish_before_date, courseresult_counts_as_passed,

	stap_approved_by_pad_employee_id, stap_finished_by_pad_employee_id, stap_ready_for_billing_by_pad_employee_id, stap_billed_by_pad_employee_id
dto_daypart_task	Tasks to do for a daypart pad_task_id, pad_daypart_id
dto_daypart_waitinglist	Students on the waiting list of a daypart pad_daypart_waitinglist_id, pad_daypart_id, pad_student_id, remark, datetime_added
dto_education	Educations, collection of course(templates) pad_education_id, is_active, name, description, color
dto_employee	Employees of your own company pad_employee_id, pad_company_id, is_active, is_checked, can_login, is_anonymized, has_portalaccess_student, has_portalaccess_instructor, has_portalaccess_customer, has_portalaccess_backoffice, company_function, company_department, company_employee_id, pad_costcenter_id, costcenter_code, username, title, first_name, initials, last_name, maiden_name, prefix, calling_name, address_1, address_2, postal_code, housenumber, housenumber_extension, city, municipal, province, country, gender, mobilenumbers, phonenumber_1, phonenumber_2, fax_number, emailaddress_1, emailaddress_2, emailaddress_3, date_of_birth, birth_city, birth_country, socialsecurity_number, nationality, language_speaking, language_portals, remark, scholing_level, external_debit_number, drivers_license_c_achieve_date, drivers_license_d_achieve_date, has_code95, drivers_license_c_enddate_date, drivers_license_d_enddate_date, pad_date_created, last_login_date, creatingsource_name, additional_creatingsource_name, nibhv_number, oranjekruis_number, cbr_id, coc_number, vat_id, employment_start_date, employment_end_date, max_working_hours_per_month, datetime_last_updated
dto_employee_competence	Competences of own employees pad_employee_id, pad_competence_id, current_level, creation_date, valid_until_date, remark, added_by_pad_employee_id, added_by_pad_daypart_id, added_by_pad_course_id
dto_employee_extrafields	Extrafields for own employees pad_employee_id, code, label, value
dto_employee_file	Files of an own employee pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_employee_id
dto_employee_rate	Rates for own employees pad_employee_rate_id, pad_employee_id, price, vat, ratetype, description, days_of_week, time_start, time_end, name
dto_employee_relation	Relations for own employees pad_employee_id, pad_company_id, end_date, start_date, deletion_date, remark, type_id, type_name
dto_group	Groups for course, coursetemplate, etc. pad_group_id, is_active, name, description, group_type, color, organising_pad_company_id
dto_instructor	Instructors pad_instructor_id, is_active, is_checked, can_login, is_anonymized, has_portalaccess_student, has_portalaccess_instructor, has_portalaccess_customer, company_function, company_department, company_employee_id,

	pad_costcenter_id, costcenter_code, username, title, first_name, initials, last_name, maiden_name, prefix, calling_name, address_1, address_2, postal_code, housenumber, housenumber_extension, city, municipal, province, country, gender, mobilenumbers, phonenumber_1, phonenumber_2, fax_number, emailaddress_1, emailaddress_2, emailaddress_3, date_of_birth, birth_city, birth_country, socialsecurity_number, nationality, language_speaking, language_portals, remark, scholing_level, external_debit_number, drivers_license_c_achieve_date, drivers_license_d_achieve_date, has_code95, drivers_license_c_enddate_date, drivers_license_d_enddate_date, pad_date_created, last_login_date, creatingsource_name, additional_creatingsource_name, nibhv_number, oranjekruis_number, employment_start_date, employment_end_date, max_working_hours_per_month, max_travel_distance, article_code, linked_private_pad_company_id, datetime_last_updated
dto_instructor_competence	Instructors competences pad_instructor_id, pad_competence_id, current_level, creation_date, valid_until_date, remark, added_by_pad_employee_id, added_by_pad_daypart_id, added_by_pad_course_id
dto_instructor_extrafields	Instructors extrafields pad_instructor_id, code, label, value
dto_instructor_file	Files of an instructor pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_instructor_id
dto_instructor_rate	Instructors rates pad_instructor_rate_id, pad_instructor_id, price, vat, ratetype, description, days_of_week, time_start, time_end, name
dto_instructor_relation	Instructors relations pad_instructor_id, pad_company_id, end_date, start_date, deletion_date, remark, type_id, type_name
dto_invoice	Invoices pad_invoice_id, number, invoice_type, code, original_code, pad_created_by_employee_id, date_created, invoice_date, due_date, description, status, pad_company_id, credit_date, pad_credit_invoice_id, pad_credit_by_employee_id, addressed_to, reference_code, total_amount, total_amount_inc_vat, is_rounded, uploaded_to_wisteria, pad_sender_company_id, sender_company_name, sender_zipcode, sender_housenumber, sender_housenumber_extension, sender_street, sender_city, sender_coc_number, sender_vat_number, pad_financial_company_id, is_stap, for_pad_employee_id, sender_pad_employee_id, sender_employee_name, sender_country
dto_invoice_status	The status history of an invoice pad_invoice_status_id, pad_invoice_id, pad_invoicestatus_id, set_by_pad_employee_id, datetime_set
dto_invoiceline	Invoicelines pad_invoiceline_id, pad_invoice_id, line_type, pad_student_id, pad_company_material_id, pad_material_id, pad_discount_for_invoiceline_id, pad_voucher_id, pad_voucher_for_invoiceline_id, pad_company_id, line_item_amount, total_amount, vat, line_price, override_vat, description, remark, creation_date, pad_created_by_employee_id, processed_date,

	pad_procssed_by_employee_id, pad_priceagreement_id, vat_amount, pad_course_id, code, article_code, parent_pad_invoiceline_id, note, rate_type, rate_id, pad_education_id, billed_for_pad_student_id, date_of_service
dto_invoicestatus	The statuses an invoice can have pad_invoicestatus_id, name, description, is_active, is_base_status, is_editable
dto_label	Labels pad_label_id, is_active, name, description, color
dto_location	Locations where coursedayparts can be given pad_location_id, is_active, location_type, is_over_bookable, name, code, description, room, price, capacity, street, street2, house_number, house_number_extension, postal_code, city, province, country, phone_number, email, website, latitude, longitude, pad_company_id, vat_percentage, article_code, external_id, external_provider_id
dto_location_rate	location rates pad_location_rate_id, pad_location_id, price, vat, ratetype, description, days_of_week, time_start, time_end, rate_per_person, name
dto_material	Materials which can be reserved for dayparts pad_material_id, is_active, name, description, code, price, purchase_price, vat, amount, is_invoicable, is_amount_same_as_students, orderable_via_api, visible_in_edudex, visible_in_edums, article_code, lookup_code, parent_pad_material_id, for_material_management, serial_number, manufacturer, manufacturer_type, manufacturer_date, manufacturer_warranty_period, has_lifespan, manufacturer_lifespan, manufacturer_lifespan_date, installation_date, installation_location, installation_remark, has_contract, contract_type, contract_remark
dto_note	Notes on companies, courses, coursetemplates, dayparts, invoices and persons pad_note_id, parent_pad_note_id, pad_company_id, pad_course_id, pad_coursetemplate_id, pad_daypart_id, pad_invoice_id, pad_student_or_employee_id, pad_instructor_id, linked_to_type, created_by_pad_employee_id, linked_pad_employee_id, datetime_created, text, is_system_note, is_public, is_pinned
dto_priceagreement	Priceagreement pad_priceagreement_id, pad_company_id, pad_coursetemplate_id, pad_material_id, type, percentage_per_student, percentage_on_course, price_student, price_course, remark
dto_quotation	Quotations pad_quotation_id, quotation_number, pad_company_id, pad_employee_id, pad_coursetemplate_id, po_number, state, rejected_reason, quotation_date, valid_until, pricing_scheme, price, travel_costs, includes_taxes, number_of_participants, is_closed, course_date_option, course_begin_time_option, course_end_time_option
dto_recurrence	Recurrence schedules of a course or coursetemplate pad_recurrence_id, pad_course_id, pad_coursetemplate_id, recurrence_pad_coursetemplate_id, recurrence_pad_group_id, period, time_period, is_required, remark
dto_registrationlist	Registrationlists pad_registrationlist_id, is_active, name, code, description, pad_coursetemplate_id, active_from,

	max_number_of_participants, min_number_of_participants, datetime_created
dto_relation_type	Types of relations (see the *_relation views) type_id, name, group_name, description
dto_sales_status	Sales statuses of a company pad_sales_status_id, name, description, position, is_active, is_end_status
dto_student	Students (both private and from companies) pad_student_id, pad_company_id, is_active, deactivation_reason, deactivation_date, is_checked, is_contact, can_login, is_anonymized, is_private_student, has_portalaccess_student, has_portalaccess_instructor, has_portalaccess_customer, is_duplicate, id_duplicate, company_function, company_department, company_employee_id, pad_costcenter_id, company_costcenter_code, username, title, first_name, initials, last_name, maiden_name, prefix, calling_name, address_1, address_2, postal_code, housenumber, housenumber_extension, city, municipal, province, country, gender, mobilenumbers, phonenumber_1, phonenumber_2, fax_number, emailaddress_1, emailaddress_2, emailaddress_3, date_of_birth, birth_city, birth_country, socialsecurity_number, nationality, language_speaking, language_portals, remark, scholing_level, duo, uaf, uaf_contact, uaf_client_id, bow_id, pantei_id, bow_learning_profile, finance_private, finance_company, external_debit_number, drivers_license_c_achieve_date, drivers_license_d_achieve_date, has_code95, drivers_license_c_enddate_date, drivers_license_d_enddate_date, pad_date_created, last_login_date, creatingsource_name, additional_creatingsource_name, nibhv_number, oranjekruis_number, registration_id, linked_private_pad_company_id, code95_enabled, accreditation_external_id, datetime_last_updated
dto_student_cancel_request	Requests of students to cancel their planning pad_student_cancel_request_id, pad_daypart_student_id, pad_daypart_id, pad_course_id, pad_student_id, datetime_requested, reason, cancel_id, creatingsource_name
dto_student_code95	Code95 periodes/amount for a student pad_student_id, pad_daypart_id, period_start_date, period_end_date, source_type, code95_type, code95_amount, achieved_date, manual_changed, remark
dto_student_competence	Competencens for a student pad_student_id, pad_compentence_id, current_level, creation_date, valid_until_date, remark, added_by_pad_employee_id, added_by_pad_daypart_id, added_by_pad_course_id
dto_student_course	Followed courses by students (history) pad_student_id, pad_coursetemplate_id, pad_course_id, pad_daypart_id, manual_added, style, followed_date, courseresult, no_recurrence, was_present, internal_reference, is_payed, datetime_payed, payed_with, payment_transaction_id, creatingsource_name, additional_creatingsource_name, stap_approved, stap_decision_number, stap_approved_date, stap_finished, stap_finished_date, stap_ready_for_billing, stap_ready_for_billing_date, stap_billed, stap_billed_date, course_name, course_code, daypart_name, datetime_planned, datetime_recurrence, result, remark, label, datetime_recurring_not_needed, recurring_not_needed_by_pad_employee_id, courseresult_counts_as_passed
dto_student_extrafields	Extrafields for students

	pad_student_id, code, label, value
dto_student_file	Files of a student pad_file_id, name, category, filetype, active, created_date, system_created, expiration_date, for_student_portal, for_customer_portal, for_instructor_portal, original_filename, pad_student_id
dto_student_recurrence	Recurrences of a student: when due, planned, followed pad_student_recurrence_id, pad_student_id, pad_recurrence_id, pad_course_id, pad_coursetemplate_id, recurrence_pad_coursetemplate_id, recurrence_pad_group_id, datetime_recurrence, datetime_planned, planned_pad_course_id, followed_pad_course_id, datetime_invitation_sent, period, time_period, recurring_not_needed, datetime_recurring_not_needed, recurring_not_needed_by_pad_employee_id, recurring_not_needed_reason_id, recurring_not_needed_remark
dto_student_registrationlist	Registrationlist for students pad_student_id, pad_registrationlist_id, date_added, remark, added_by_pad_employee_id
dto_student_relation	Relations for students pad_student_id, pad_company_id, end_date, start_date, deletion_date, remark, type_id, type_name
dto_task	Tasks which can be done for dayparts pad_task_id, name, description, instructions, planning_for, planning_after, execute_directly, is_mandatory, pad_employee_id, pad_responsible_employee_id, pad_completed_by_employee_id, date_of_execution, date_of_needed_completion, date_assigned, created_by_pad_employee_id
